

GOBI FOUNDATION

Project: Gobi Care

Location: Airag soum, South Gobi, Mongolia

Budget: \$45,000

Expected Construction: Fall 2021

Project summary:

Gobi Foundation will build the first ever senior day care facility in the history of Mongolia. It is a 100 percent volunteer based a daytime facility where seniors can enjoy all day activities of musical entertainment, group singing and dancing, mental stimulation games such as bingo, chess, checkers, playing cards and dominos, stretching and gentle exercise, holidays and birthday celebrations.

This pilot project will help Mongolian Government to understand and build (or use existing buildings) for the benefits of the senior citizens.

The building lot has been secured through the local Government and the facility will be connected to central heating, sewer system and electricity. For the long term sustainability, the facility's utility bills and other associated running expenses will be paid by a small membership fees.
